spin2 best: shape noise as trained vs composed correctly: response with the simulated maps jittered (16-84% of clusters shaded)
BAHAMAS: simulated clusters shifted off centre, mass-matched, n_comp ≥ 2
DARKSKIES: simulated clusters shifted off centre, mass-matched, n_comp ≥ 2
A2744 (not shifted): 0.697
noise as trained: CDM 0.470 → 0.608
complex noise: CDM 0.513 → 0.644
A2744 (not shifted): 0.697
noise as trained: CDM 0.483 → 0.522
complex noise: CDM 0.530 → 0.569
