spin2: old models vs re-fine-tuned with the corrected noise: response with the simulated maps jittered (16-84% of clusters shaded)
BAHAMAS: simulated clusters shifted off centre, mass-matched, n_comp ≥ 2
DARKSKIES: simulated clusters shifted off centre, mass-matched, n_comp ≥ 2
A2744 (not shifted), old models, old noise: 0.697
A2744 (not shifted), re-fine-tuned, corrected noise: 0.666
old models, old noise: CDM 0.470 → 0.608
old models, corrected noise: CDM 0.513 → 0.644
re-fine-tuned, corrected noise: CDM 0.475 → 0.604
old models, old noise: CDM 0.483 → 0.522
old models, corrected noise: CDM 0.530 → 0.569
re-fine-tuned, corrected noise: CDM 0.492 → 0.531
